- d. Name the first interactive computer game.
- e. Name the tab that contains Chart button in PowerPoint.

Q2. Define : a. Syntax   b. Linker   c. Splitting a cell
       d. Merge Cells

Q3. Write the importance of chart (at least 4 points).

Q4. Name the different types of chart available in PowerPoint.

Q5. Write the key features of all the four generation computer languages.

Practical Question :

Your school has asked the students to raise funds for Covid cause. The computer teacher has asked to record the collection done by different sections of classes VI to X. Create a table in PowerPoint and define the collection from each class section wise. Also convert the data into chart. Take the printout of the slide sorter view and paste in your Computer copy.

Slide 1 -   **Introduction about Covid**

Slide 2 -   **Brief explanation about the cause**

Slide 3 -   **Table (format given below)**

Class/Section	A	B	C	D	E
VI	Amount collected	Amount collected	Amount collected	Amount collected	Amount collected
VII	Amount collected	Amount collected	Amount collected	Amount collected	Amount collected
VIII	Amount collected	Amount collected	Amount collected	Amount collected	Amount collected
IX	Amount collected	Amount collected	Amount collected	Amount collected	Amount collected
X	Amount collected	Amount collected	Amount collected	Amount collected	Amount collected

Apply various formatting effect to the table.

Slide 4 -   Create Column chart for the above table.

Subject Enrichment activity:

Do the following question in white coloured A4 size sheet.

Q. Write any four features of any four Computer languages (like C, C++, Java, Cobol, Python etc.) Paste or Draw their icons also.

Eg Python
