

ST THOMAS SCHOOL INDIRAPURAM

HOLIDAY HOME WORK (2020-21)

CLASS VI SCIENCE

1. ***'EAT HEALTHY AND STAY HEALTHY'***. How is this statement relevant to the current scenario of **COVID-19**. Write 6-7 lines related to this topic on A-4 sized coloured sheets or any other available sheets.

OR

How can you make a homemade healthy drink for boosting immunity to fight against **COVID-19**. Make a research study on this topic using e-sources and fill the information (for any one healthy drink) in a tabular format on A-4 sheet.

INGREDIENT	SOURCE	PLANT PART WHICH GIVES US THE INGREDIENT

2. ***'Learning By Doing'***

Prepare a video of 3 minutes-4 minutes to demonstrate the following activity.

<i>Roll No</i>	<i>Topic</i>
1-20	To determine the solubility of any three solids.(Refer page no 29 in the book)
21 onwards	To determine the solubility of any three liquids. (Refer page no 30 in the book.)

Demonstration should include all the details like **aim, materials required, procedure, observation and conclusion.**

Note – You are required to send the video and images of written work together to your respective science teachers through **edunext app** or **email** once you have completed. You should mention **your name, class, section** and **roll no** while submission. These works must be submitted latest by **30th June 2020**.
